Dogs and for cats	Health Certificate	-	This certificate is for veterinary purposes only and must accompany the consignment until it reaches the border inspection post.	State Veterinary and Food Administrati on (Ministry of Agriculture)
Domestic dogs, cats and ferrets	Veterinary Certificate for domestic dogs, cats and ferrets entering the European Community for non- commercial movements	This certificate must be accompanied by supporting documentation, or a certified copy thereof, including the identification details of he animal concerned, vaccination details and the result of the serological test.	Veterinary purposes	State Veterinary and Food Administrati on (Ministry of Agriculture)

Note: A separate certificate must be provided for each consignment of animals.

For detailed information see copies of the certificates in report Appendix.

Slovakia has implemented all EU regulations regarding export certificates. For information on EU export certificates, please see GAIN Report E35010.

The export certificates have to be provided in the language of the country of EU entry and also of the final destination country (=in Slovak language). The forms (see Appendix) are bilingual.

Animals and products of animal origin

Forms of certificates can be downloaded from the State Veterinary and Food Administration web site:

Plants and plant products

Slovakia does not require any specific certificates for plant products. Regulations of the European Union apply. Slovakia has set national limits only for mineral waters and food supplements (e.g. vitamis), therefore the importer of these products has to apply at the Public Health Authority.

Organic products

For organic production in Slovakia, EU regulations and the Slovak Act on Ecological Farming no. 421/2004 apply. Organic agriculture and products are under control of the Central Institute for Control and Testing in Agriculture (see chapter Relevant Contacts). Organic products in Slovakia carry the "EKO" label, see picture below.
